SUMMARY

Full-Stack software developer that strives to dynamically enhance mobile-first applications. Freshly graduated from the University of Toronto's Full-Stack Coding Bootcamp, with a newly evolved skill set in React, JavaScript, Node, back-end Databases and front-end Frameworks. Aims to give each project its own identity while distributing a flush end-user experience. Excited to contribute a variety of creative skills, and become a part of a high caliber team to develop new and exhilarating projects.

Let's Go Travel Planner | <https://github.com/Mcilhaggis/lets-go-travel-planner> | <https://stormy-springs-60842.herokuapp.com/>

- **Summary:** Travel app that effortlessly creates user itineraries for post COVID vacations.
- **Role:** Responsible for creating the Full-CRUD aspect of the application with MySQL. Handled the deployment process. Implemented the Dark-Mode feature.
- **Technologies:** Node, MySQL, Handlebars, Jest, Heroku, Travis-CI, jQuery, API's

EXPERIENCE

Windows 10 Deployment Contractor UFA (United Farms of Alberta)

Q3-Q4 2019
Calgary, AB

- Imaged new and existing desktops in preparation for an Alberta wide Windows 10 rollout using Pixie Boot
- Configured AS/400 and printers remotely before deployments
- Worked proficiently with System Center Configuration Manager to push vital updates and setup user state migrations
- Managed Active Directory and Service Now for outgoing and incoming assets to and from the field
- Partook with the onboarding process for new users at the Calgary head office
- Participated in field deployments across Alberta at UFA Farm Stores and Cardlocks
- Provided on-site support for users, Windows 10 training and problem solved any migration related issues

Windows 10 Deployment Contractor Cenovus

Q2-Q3 2019
Calgary, AB

- Lead Field Technician on site handling daily correspondences with the Project Manager
- Deployed Windows 10 Desktops, Laptops, Tablets and OptiPlex Micro PCs for field users at Foster Creek, Deep Basin and Christina Lake
- Configured software and hardware such as printers, wireless devices and third-party applications
- Provided Tier 1 and after move support for users after migrations

Windows 10 Deployment Contractor Enbridge

Q3-Q4 2018
Calgary, AB

- Responsible for imaging new Laptops for deployment using SCCM
- Performed USMT backups and restores of user data
- Configured and installed new software for users using Software Center
- Provided Tier 1 and after move support for users
