SUMMARY

Full-Stack software developer that strives to dynamically enhance mobile-first applications. Freshly graduated with a certificate from the University of Toronto's Full-Stack Coding Bootcamp, with a newly evolved skill set in React, JavaScript, Node, back-end Databases and front-end Frameworks. Aims to give each project its own identity while distributing a flush end-user experience. Excited to contribute a variety of creative skills, and become a part of a high caliber team to develop new and exhilarating projects.

TECHNICAL SKILLS

Languages: JavaScript ES6+, Sass, HTML5, CSS3
Database: MongoDB, MySQL
Applications: GitHub, Visual Studio Code, GIT, Heroku, Travis-CI, GitKraken
Frameworks: React, Node.js, Express, Material Ui, Bootstrap, jQuery, Sequelize, Mongoose

PROJECTS

MindShare | https://github.com/P3TeamTwo/p3 | https://guarded-dusk-24354.herokuapp.com/

- **Summary:** Wellbeing app that allows users to track their overall data and input journal events
- **Role:** Responsible for the deployment process. Created the code logic for the user quiz, implemented the unit test and provided the code logic to determine the graph data averages
- **Technologies:** MongoDB, Express, React, Node, Material Ui, Jest, Travis-CI, Heroku, API's

**Google Book Search | https://github.com/HustinKava/google-books-search |
https://secret-savannah-64299.herokuapp.com/**

- **Summary:** Book search app that allows users to search, save and delete books
- **Role:** Solo project developed independently
- **Technologies:** MongoDB, Express, React, Node, Bootstrap, Socket-IO, Travis-CI, Heroku, API

**Let's Go Travel Planner | https://github.com/Mcilhaggis/lets-go-travel-planner |
https://stormy-springs-60842.herokuapp.com/**

- **Summary:** Travel app that effortlessly creates user itineraries for post COVID vacations
- **Role:** Responsible for creating the Full-CRUD aspect of the app with MySQL and handled the deployment process. Implemented the Dark-Mode feature
- **Technologies:** Node, MySQL, Handlebars, Jest, Heroku, Travis-CI, jQuery, Bootstrap, API's

Web Production Artist   **July 2021 – Present**
TVO   **Toronto, ON**

Coded engaging online courses for elementary school teachers. Developed new interactive learning objects, created new global components for use with the Ontario Ministry of Education's learning activities and maintained existing JavaScript projects for TVO's Elementary department.

Key Accomplishments:
- Built two interactive learning objects with React and Sass that have been inserted throughout many courses using
- Quickly identified and targeted bug fixes for Front-End components

Front-End Developer   **Jun – July 2021**
Galaxy Protocol | https://galaxyprotocol.io   **Toronto, ON**

Engaged closely with a design team to effectively create a React based mobile first website for a start-up cryptocurrency organization. Integrated new components for different sections of the web page which were styled with Sass and Material UI.

Key Accomplishments:
- Triumphantly met the targeted web application launch date
- Collaborated with a team of like-minded developers to create an exquisite modern website

Win 10 Deployment   **Aug – Nov 2019**
UFA (United Farmers of Alberta)   **Calgary, AB**

Imaged new and existing desktops in preparation for an Alberta wide Windows 10 rollout using Pixie Boot. Configured AS/400 and printers remotely before deployments. Worked proficiently with SCCM to push vital updates and set up user state migrations. Managed Active Directory and Service Now for outgoing and incoming assets to and from the field.

Key Accomplishments:
- Successfully carried out deployments across the region of Alberta
- Sufficiently provided on-site support for users by solving migration related issues

EDUCATION

Full-Stack-Developer Bootcamp Certificate: **2020 - 2021**
University of Toronto   **Toronto, ON**
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

AWS   **2022**
Currently expanding my current knowledge and analyzing Amazon Web Services using a variety of online courses available. https://github.com/HustinKava/aws-training
